

We're looking for an  
**Azure Cloud Architect (m/f/d)**  
to support our Team in Munich

## About Neos

Neos is a Cloud-, Infrastructure- and Service Provider, specialised in building customised Digital Platforms across all industries. We offer a full range of solutions around Big Data, DevOps and Software Defined Data Centers, including Infrastructure and Application Management, Cloud Infrastructure Enablement and application development platforms.

## Principal Tasks

- You capture business pain points and requirements
- You drive high priority customer initiatives on Azure in collaboration with customers and your sales team
- You fill a technical, customer-facing role that is accountable for the end-to-end customer cloud deployment experience
- You own the Azure technical customer engagement including: architectural design sessions, specific implementation projects and/or Proofs of Concepts
- You utilize your experience to create Solution architecture and design
- You provide standards and reusable components for delivery
- You are a driving force for IaC and CI/CD adoption

## Your Profile

You have experience in customer facing roles, success leading deep technical architecture and application design discussions with senior customer executives to drive cloud deployment. In addition we'd be glad if you bring along most of the following skills:

- Bachelor's degree in computer science or related field preferred
- 3-5+ years senior (Tier 3) level support with cloud infrastructure as part of responsibilities
- 5+ years of architecture, design, implementation, and/or support of highly distributed applications (i.e. having an architectural sense for ensuring availability, reliability, etc.)
- 2+ years of experience in migrating on premise workloads to the cloud
- 5+ years of success in consultative/complex technical sales and deployment projects (where necessary, managing various stakeholder relationships to get consensus on solution/projects)
- Oversight experience on major transformation projects and successful transitions to implementation support teams Technologies
- Deep understanding of cloud computing technologies, business drivers, and emerging computing trends

- Deep technical experience in solution design for public cloud
- Understanding of how to build resilient multi-site architectures
- Experience with configuration management and automation technologies such as PowerShell, DSC, Terraform, Chef, ARM Templates and Puppet
- Working knowledge with AGILE development, SCRUM and Application Lifecycle Management (ALM)
- Proven track record of building deep technical relationships with senior executives and growing cloud consumption share in large or highly strategic accounts
- Proven track record of driving decisions collaboratively, resolving conflicts and ensuring follow through
- Presentation skills with a high degree of comfort with both large and small audiences
- Prior work experience in a Consulting/Architecture position within a software and/or services company
- Problem-solving mentality leveraging internal and/or external resources
- Exceptional verbal and written communication
- Certifications: MCSE Cloud Platform and Infrastructure, MCSA Cloud Platform Solutions Associate, MCSA Linux on Azure Solutions Associate
- Exam priorities: Architecting Azure Solutions 70-534, 70-533 Implementing Azure Infrastructure Solutions
- Excellent German and English language skills

## What we offer
