

We're looking for a
M365 Security Architect (m/f/d)
to support our Team in Bangkok/Munich or remotely

About Neos

Neos IT Services is a leading technology advisor to companies relying on business critical platforms. Neos is a partner to major enterprises delivering digitization roadmaps, automated cloud infrastructure, application development platforms and Big Data platform optimization. With approximately 90 professional staff, Neos offers a full range of IT solution architecture including migration to cloud, Big Data, DevOps and Security.

Principal Tasks

As a member of the global operations team your key focus areas will be:

- Customer communication on senior level
- Architecture patterns and security approaches
- System or service security including documentation
- Advisory services on technologies and associated risks
- Security lead for technical design of system and services
- M365- and Azure cloud-specific capabilities, services, functions

Further responsibilities:

- Be first customer point of contact for new requirements and escalations
- Provide support to sales team and solution presentations to customers if needed
- Architect, design, and implement security solutions based on Azure and M365 services
- Review security incidents and drive improvements in the area of security
- Live and breathe Security by Design and Security as Code (DevOps)
- Help Neos to mature, i.e. by coaching team members

Your Profile

Academic background

- Bachelor's degree in Computer Engineering/Computer Science/Information Technology

Professional Experience

- About 3+ years of working experience in Azure Security and Compliance
- About 8+ years of working experience in Senior Windows Engineering or as Windows Team Lead roles
- Certification AZ-500: Microsoft Azure Security Technologies
- Certification MS-500: Microsoft 365 Security Administration

Required skill set:

- Strong analytical skills and good presentation and documentation skills
- Excellent English communication skills and great interpersonal skills, second language - German or Thai is a plus
- Strong knowledge of Azure and Microsoft 365 architecture, solution design and implementation
- Working experience in cloud governance and cloud security, including areas of policies and procedures
- Ability to translate and communicate security and risk implications effectively to various types of stakeholders
- Ability to design and review system architectures through the application of patterns and principles
- Ability to deliver a full solution which is designed to achieve the agreed business outcome
- Working experience in building solutions and deploying infrastructure in the cloud

What we offer

The greatest in Neos are our people!
