We're currently looking for a freelance
Senior IT Program Manager (m/f/d)
to support our team in Munich or remotely for 6 months/extendable.

About Neos

Neos IT Services is a leading technology advisor to companies relying on business critical platforms. Neos is a partner to major enterprises delivering digitization roadmaps, automated cloud infrastructure, application development platforms and Big Data platform optimization. With approximately 90 professional staff and three global branches, Neos offers a full range of IT solution architecture including migration to Cloud, Big Data, DevOps and Security.

Principal Tasks

As a Senior Program Manager at Neos you are a key member of our customer teams to partner with our clients in delivering digital solutions. Our customers are seeking to be part of the digital revolution and benefit from the agility, scalability, and cost effectiveness of Public Cloud Infrastructure as a Service (IaaS and PaaS) for their IT environments.

You will be working extensively with mostly Microsoft, but also Amazon and our internal cloud architects who are great technical specialists on the market.

You will take responsibility of the long-term customer relationships, drive Neos' performance, and continuously seek ways to improve services' financials performance by automation / process refinement and optimization.

Managing customer expectations is something you consider as a major part of your work.

Your Profile

You are an experienced Senior Program Manager who is enthusiastic about the possibilities the digital era can provide to our customers, has self-motivation to drive the team's success, and creates added value to our clients. We are particularly looking to hire someone who can hit the ground running and is a natural organizer.

Additionally, we are looking for the following skills:

- You are capable of partnering directly with clients and leading programs; ensuring projects are completed on time and on budget is essential
- You are able and experienced in working with multi-cultural and multi-site teams
- You have led large scale IT projects, especially large-scale application migrations
- You are familiar with Agile methods like Scrum and Kanban
- You are fun, organized, and an excellent communicator
- You are comfortable and confident with engaging senior management to steer complex programs and can act as a key part of the sales process when needed
- 8+ years relevant experience; you are keen to grow your technical and consulting skills in a rapidly expanding company
- Highly motivated and proactive with proven leadership skills and an ability to thrive in a fast-paced environment
- You have a relevant educational background and studied Business, Informatics, Engineering, Computer Sciences, or equivalent work experience.
- Project/Program Management Professional qualification or equivalent industry/vendor specific project/program management certification, or equivalent work experience.
- Your oral and written English and German skills are excellent
