

We're looking for a (contractor, 6-12 months)
Azure DevOps Engineer (m/f/d)
to support our Team in Bangkok or remote

About Neos

Neos is a Cloud-, Infrastructure- and Service Provider, specialised in building customised Digital Platforms across all industries. We offer a full range of solutions around Big Data, DevOps and Software Defined Data Centers, including Infrastructure and Application Management, Cloud Infrastructure Enablement and application development platforms.

Principal Tasks

As member of the global operations team you will be responsible for creating and maintaining DevOps platforms including scripts, codes and Git repository for environments, both on-premise (Windows environments) and in the cloud (mostly Azure and AWS). You will also be responsible for crucial automation and security operation tasks.

Key focus areas:

- Designing DevOps Strategy
- Implementing DevOps Development Processes
- Implementing Continuous Integration & Continuous Delivery
- Security and Compliance Management
- Implementing Application Infrastructure

Additional areas:

- Setup and maintain Windows environments
- Able to provide support 24 x 7

Your Profile

Academic background:

- Bachelor degree or equivalent work experience

Professional Experience:

You are a Senior Windows Engineer who has experiences with:

- Windows administration & IaaS
- Azure (including design creation)
- ARM templates, Bicep
- DevOps in various platforms e.g. Automation with PowerShell, Azure
- Terraform desirable
- Optional skills: AWS, Ansible

Required skill set:

- Operating Systems: Windows, Linux system administration
- Proven experience on setting up and maintaining servers and infrastructure where CI/CD runs
 - On-Premise Infrastructure
 - Azure and other Cloud technology
- Solid experience as a DevOps Engineer in a 24x7 uptime, including automation experience with configuration management tools.
- Scripting Skills:
 - Strong scripting (e.g. PowerShell, Python) and automation skills
- Strong experience on best in class Gitflow branching processes
- Experiences with
 - RESTful APIs
 - REST/JSON
- Fluent oral and written English skills
- Optional:
 - Familiarity with virtualization, cloud platforms and Docker management platforms, Google Kubernetes
 - Working knowledge of containerization (Docker) and supporting technologies
 - Knowledge of business processes or applications will be an advantage
- Some of the following exams would be preferred:
 - Microsoft MCSA Certificate
 - Azure Certificate (AZ-400)
 - Microsoft Certified: Azure Developer Associate OR Azure Administrator Associate

What we offer

The greatest in Neos are our people!
