

We're looking for an
Azure Migration Engineer (m/f/d)
to support our Team in the APAC region/Bangkok or remotely

About Neos

Neos IT Services is a leading technology advisor to companies relying on business critical platforms. Neos is a partner to major enterprises delivering digitization roadmaps, automated cloud infrastructure, application development platforms and Big Data platform optimization. With approximately 90 professional staff, Neos offers a full range of IT solution architecture including migration to cloud, Big Data, DevOps and Security.

Principal Tasks

This is a great opportunity for an **Azure Migration Engineer** to join our **Azure Cloud Delivery Squad**. You will lead or be part of a team delivering our datacentre migration services to the Microsoft Azure Cloud for our clients.

1. As a member of the Azure Cloud Delivery Squad you:
 - Support in the creation and management of service blueprints which are used for and during sales engagements and marketing campaigns.
 - Support in the sales phase (see below).
 - Support in the project phase.
2. Sales activities
 - Support the Sales team during the customer engagements
3. Project activities
 - Assume technical leadership & ownership on the migration of the customer workloads to Microsoft Azure whilst being part of the wider project team.
 - Define a project plan and progress the customer through the following phases:
 1. Discovery & Assessment
 2. Design
 3. Implementation / Migration
 4. Operations Handover
 - Proactively engage with all stakeholders throughout all phases:
 1. Neos
 2. Customer
 3. Third Parties
 - Produce all documentation required during all phases
 - Handover to the Operations team

Your Profile

Academic background:

- Bachelor degree in Information Technology or equivalent work experience
- 5+ years of experience in planning and executing the governance of cloud adoption, IT transformation and cloud migrations, and technical implementation
- Experience in project management, management consulting and stakeholder management

Required skill set:

- You have successfully completed your studies or training in the IT sector or in a commercial environment and already have professional knowledge in the administrative cloud environment
- You are characterized by basic knowledge and affinity for current cloud technologies, Azure certifications, DevOps skills or experience in the field of cloud technologies are desirable
- You are not just technical but also love to take leadership and ownership in your domain
- You are committed to your customers - for this you bring experience in application and database operations and in the area of DevOps and have knowledge of networking, storage, Linux, middleware and scripting
- Methodical, structured and independent approach as well as strong teamwork skills in international teams describe your way of working
- Your affinity for agility as well as fluent English skills round out your profile, Thai skills or interest to learn are a plus

What we offer
