

Shape the future of Cloud

We're hiring - expand your horizons

Are you enthusiastic about IT, cloud, devops and the latest trends? You have a passion for delivery (proven record of sole ownership of projects with at least 5 years of uninterrupted project management experience and 2 Cloud projects)? Do you see surprises and unexpected changes as a challenge and motivation? You are able to deliver in the grey zone sometimes i.e. not always having the desired clarity, tools or resource and finding creative solutions about it?

You are used to manage different internal and external senior stakeholders? Great!

We're looking for a passionate, Thai-speaking

Project Manager (f/m)

to support our team in Bangkok, Thailand

Your day-to-day work

You can analyse the situation and apply the best delivery methodology and governance for the situation at hand.

Live the Neos values as you take sole ownership of projects and be prepared to invest in helping to mature the Neos cloud delivery framework and skillset of existing colleagues.

You work with a good balance of swift execution, attention to detail and a high-qualitative outcome is a matter of course for you.

Fluent Thai speaking.

Together with industry-leading partners, we create platforms for cloud applications to achieve greater business value for our customers.

We **advise**, **deliver** and **operate** the digital future!

Sounds like the perfect match?

We are currently looking for a committed and reliable

IT Project Manager (m/f)

to support our team.

Start date: Immediately

Classification: Service Delivery

Location: Bangkok

About Neos:

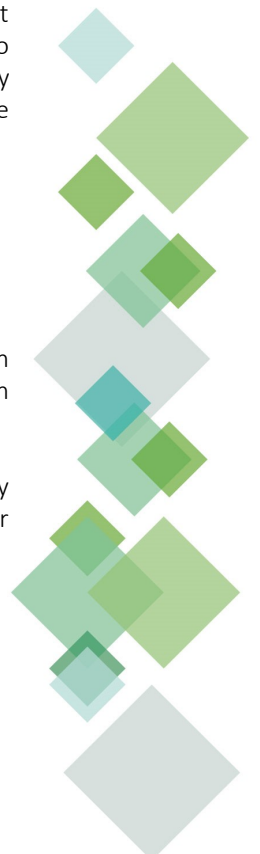

Neos, headquartered in Munich (Germany), is a globally trusted expert using technology innovatively to enable businesses' digital needs. We offer a full range of solutions around Big Data, DevOps and Software Defined Data Centers, including infrastructure and application management, cloud infrastructure enablement and application development platforms. Neos also supports innovative software vendors in their virtualization automation, application hosting and cloud migration efforts.

Neos' clients include large enterprises in the areas of telecommunications, travel, hospitality and e-commerce. Neos aims to be the trusted technology partner of choice for organizations requiring specialized assistance to transition into, and operate, their IT in the digitized world. We create efficient teams of multi-skilled engineers, who apply their experience in high-availability environments, to provide agile solutions. High ethical standards are an integral part of our business. Our teams identify with, and own responsibility for, their contribution to sustainable business success, which includes the environments in which we operate.

Your Role:

Since the beginning of 2009, Neos has seen rapid growth in the services it provides. In order to sustain this growth, the company is looking to expand its offering in existing and new markets including Eastern Europe, Nordics and Asia.

Your initial assignment will be to take over the management of two-inflight projects, with short delivery timeframes. The first project being the migration and transition of customer application support to our Bangkok Operations Team, currently in build phase.

In parallel you will be responsible for the Delivery of PCI DSS Certification for our Singapore Data Centre, currently in design phase.

Your Responsibilities:

Plan, track, control and delivery of infrastructure build, application development and system integration across matrix teams consisting of both internal and external stakeholders to ensure overall project goals and objectives are met.

- Responsible for timeline and resource management.
- Accountable for structuring projects to meet customer goals and objectives, ensuring roles and responsibilities are fully defined and agreed.
- Track all activities against plans; providing regular and accurate reports to senior management, project office, and client management as appropriate.
- Responsible for understanding key business drivers and managing operational metrics, including cost, quality, cycle-time and customer satisfaction.
- Resolving resource conflicts and monitoring deployment of individuals to ensure that they are contributing effectively while developing skills and experience.

Your Personality Profile:

The ideal candidate will demonstrate an entrepreneurial mindset, strong leadership skills and an active can-do attitude. The candidate should be passionate about new technologies and business models in the IT industry and able to communicate to audiences at all levels, the value of the Neos solutions.

1. Academic background:

- Tertiary education and/or equivalent relevant experience

2. Professional Experience:

- Minimum of 5 – 8 years of experience in IT project management and a minimum of 5 years of experience working in an international environment

3. Required skill set:

- Ability to manage multiple fast paced high profile projects.
- An excellent problem-solving attitude, able to quickly identify project risks and opportunities early in the project and work with a high degree of autonomy to address them.

- Ability to manage medium to complex projects and teams of 10 people or more, including Vendor management.
- Working knowledge of both Agile and non-Agile methodologies
- Ability to hit the ground running
- Proficient in English both, speaking and writing
- Being able to work well under pressure in a multi-cultural environment
- DevOps and Data Centre Automation

Experience within the following domains would be highly advantageous.

- Software Development Process
 - Requirements gathering
 - Design
 - Implementation
 - Verification
 - Maintenance
- PCI DSS certification process

We offer:

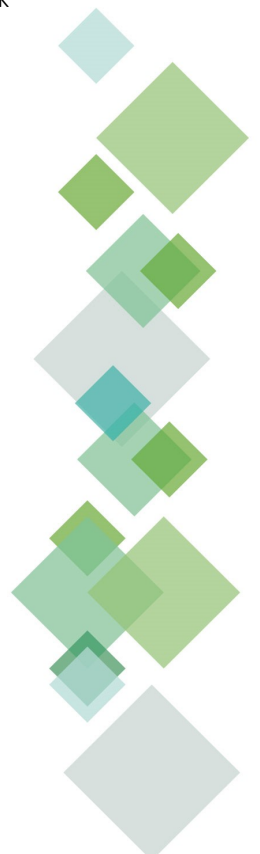

An exciting and stimulating position in a dynamic, fast growing and multi-cultural IT company. You will have the opportunity to develop yourself and your career, working in multiple different areas in a relaxed, professional environment. You will also have the opportunity to be innovative and think 'outside of the box'.

If you believe you are the right person, please send your application via e-mail to Ann Modersitzl
